Apple Color Plotter: Using it with a IIc

==

To use an Apple Color Plotter with a IIc, attach the plotter to Port #1 and set its switches as follows:

1	2	3	4	5	6	7	8
OFF	ON	ON	OFF	OFF	ON	ON	ON

These switch settings correspond to: 9600 baud, 8 data bits, no parity, and 2 stop bits.
