FORTRAN: Unformatted I/O

=====

Statements of the form PRINT*, READ*, or WRITE* are not allowed.

All I/O is of the form:

```
READ ( <unit number> [, <format identifier> ] ) <iolist>  
WRITE ( <unit number> [, <format identifier> ] ) <iolist>
```

Refer to pages 81 through 86 of the Apple FORTRAN Language Reference Manual for more information on the OPEN, READ, and WRITE statements.
