DOS 3.3: MUFFIN

Revised: 11/20/84
Security: Everyone

DOS 3.3: MUFFIN

=====

MUFFIN is a utility included on your DOS 3.3 master diskette; it converts 13 sector diskettes to 16 sector. Some diskettes which have protection schemes cannot be converted by MUFFIN. These diskettes must continue to be used with the Basics diskette, or by BRUNing Boot13.
