Apple IIC Numeric Keypad

==

Apple makes no numeric keypad for the IIc, but Computers & More has developed
an Apple IIc numeric keypad with 10 numerals, period, return(+), minus, tab,
left arrow, right arrow, and down arrow. It is installable by any Tech,
requiring no soldering and a case modification only if a disconnect plug is
desired in the IIc. Retail is suggested at $ 99.95 with customary margins. A
disconnect kit is available for an additional $ 20.00 . For information and
availability contact:
