ImageWriter LQ: Requires Macintosh Plus Or Later

=====

This article last reviewed: 6 January 1988

Because the ImageWriter LQ must use current versions of:

- the System file (version 4.1 or later)
- the Finder (version 5.5 or later)
- the Chooser (version 3.1 or later)

the ImageWriter LQ should not be used with a Macintosh 512KE, Macintosh 512K, or Macintosh 128K.
