LaserWriter IINTX: Compatible SCSI Drives

=====

This article last reviewed: 18 April 1989

Adobe submitted the following list of drives tested by them and known to work with the LaserWriter IINTX:

Seagate ST225N
Rodime 650 series (R0651, R0652, R0751, R0752)
Quantum Q200 series (Q250, Q280)
MiniScribe 8425-SCSI
MiniScribe 80515

Other drives using embedded SCSI controllers have been reported compatible but have not been tested by Adobe. For more information on this topic, see the November 15, 1988 issue of "MacWeek".
