System and Finder Versions List

=======================================================================

This article last reviewed: 12 March 1990

TOPIC -----------------------------------------------------------

Is there a listing anywhere System Software disks that shows what versions of
the System and Finder are on each set of disks?

DISCUSSION ------------------------------------------------------

We used the Copy Center disk images on the Information Source to put together
this list:

Disk Set Name                      System Version        Finder Version
-----------------------            --------------        --------------
System Software 1.0                System 3.2            Finder 5.3
System Software 1.1                System 3.2            Finder 5.3
System Software 2.0                System 4.1            Finder 5.5
System Software 2.0.1              System 4.1            Finder 5.5
System Software 5.0                System 4.2            Finder 6.0
System Software 5.1                System 4.3            Finder 6.0
System Software 6.0                System 6.0            Finder 6.1
System Software 6.0.2              System 6.0.2          Finder 6.1
System Software 6.0.3              System 6.0.3          Finder 6.1
System Software 6.0.4              System 6.0.4          Finder 6.1.4
```
