Apple IIGS: High-Speed SCSI Card Memory Requirement (11/94)

===

Article Created: 10 July 1990
Article Reviewed/Updated: 21 November 1994

TOPIC ---

How much memory does the Apple II High-Speed SCSI card require? I can't find
anything about this in the manual.

DISCUSSION ---

The Apple II High-Speed SCSI card requires a minimum of 768K on the Apple IIGS
computer.
