TOPIC ---

Is anyone doing CD-ROMs with an A/UX file system rather than hfs? I am setting
up an A/UX anonymous ftp server for a university that would like to have
CD-ROMs connected for public access.

DISCUSSION --

Yes, it is possible to have a CD-ROM in A/UX file system format mounted under
A/UX and accessed by local or remote users. The distributed A/UX CD-ROM is an
example of this.
