A/UX: Automatic Startup

=====

Article Created: 11 October 1990

Article Change History

08/31/92 - REVIEWED
• For technical accuracy.

TOPIC -----

How do I get A/UX to boot automatically when I start up the hardware?

DISCUSSION -----

Follow these steps:

- 1) From the Macintosh OS, select the A/UX icon.
- 2) Pull down the Special menu and select the command Set Startup.
- 3) Set the startup to A/UX Startup. Click OK.
- 4) Restart the machine.
