A/UX: The "mount: <directory>: Not owner" Mount Error

=====

Article Created: 28 January 1991

### Article Change History

-----

08/31/92 - REVIEWED

- For technical accuracy.

### TOPIC -----

I tried to mount a file system and got the error:

mount: <directory>: Not owner

### DISCUSSION -----

Do these two steps:

- 1) You must be logged in as "root" when mounting partitions.
- 2) Enter the line: whoami

The output should be: "root". If it isn't, log in as "root" and try the mount again.
