Intelligent Print Spoolers

===

This article last reviewed: 04 January 1991

TOPIC ---

I need an intelligent print server that can:

1) Sense the media in each printer and assign the right printer to the job
coming in.

2) Automatically reassign print jobs to make optimum use of available
resources.

DISCUSSION --

At this date, we are aware of no products that meet your requirements
completely. For information on third-party products that may meet some of your
requirements, search the Tech Info Library and the Redgate Buyer's Guide for
products from Mt. Xinu (K-Spool), Alisa, Pacer, Cooperative Printing Solutions
(PServe), and Watcon (MacJanet).
