Article Last Updated: 27 July 1992

TOPIC -----

We want to standardize systems from the Macintosh Plus computers on up.  
Does version 7.0.1 work okay on all models?

DISCUSSION -----

Yes. System 7.0.1 is good for any Macintosh from the Macintosh Plus on up. You should have no problems upgrading existing installations to this version. Apple also recommends that you install the System 7 TuneUp 1.1.1.
