System 7: What Happens to Your Old Fonts

=====

Article Created: 19 June 1991

Article Change History

09/02/92 - REVIEWED
• For technical accuracy; edited.

TOPIC -----

What happens to the fonts already installed in my System 6.0.x System when I upgrade to System 7?

DISCUSSION -----

Bitmapped fonts already installed in the System file will remain there.

PostScript fonts located in the System Folder will remain there. PostScript fonts installed after an upgrade to System 7 (by dragging them over the System Folder icon) are placed in the Extensions folder.
