ImageWriter I: Not AppleTalk-Compatible

=====

Article Created: 14 May 1991
Article Last Reviewed: 27 May 1991
Article Last Updated:

TOPIC -----

Is the ImageWriter I printer AppleTalk compatible? If so, what is the interface card?

DISCUSSION -----

The ImageWriter I is NOT AppleTalk compatible. The only possible way we know that you might be able to make the printer available on a network might be using something like a Shiva NetSerial device.
