System 7: Compatibility with Display Card 8•24 GC Software

========================================================================

Article Created: 2 January 1992
Article Last Reviewed: 15 June 1992
Article Last Updated:

TOPIC -----------------------------------------------------------

The Macintosh Display Card 8•24 GC software version 1.0 isn't compatible
with System 7.0 or 7.0.1 in the accelerated mode.

DISCUSSION ------------------------------------------------------

Version 7.0.1 or higher of the Macintosh Display Card 8•24 GC software is
compatible with System software version 7.0 and 7.0.1.
