LaserWriter IIf & IIg: HP PCL 4+ Emulation Font Support

=====

Article Created: 9 July 1992  
Article Last Reviewed:  
Article Last Updated:

TOPIC -----

The LaserWriter IIf and IIg support HP PCL 4+ emulation. What fonts and font cartridges does this emulation support?

DISCUSSION -----

The LaserWriter IIf and IIg support all built-in HP fonts in some capacity.

The LaserWriter IIf and IIg HP LaserJet IIP emulation does not provide any of the fonts available in HP Font cartridges. However, you can download HP fonts to the printers while they are in HP LaserJet IIP emulation mode in the same way as it is done on the HP LaserJet IIP.

For a discussion on the differences between the HP LaserJet IIP and the HP LaserJet IIP emulation provided by the LaserWriter IIf and IIg, refer to the "LaserWriter IIf and IIg Owner's Guide" (pages 105 through 108).
