System 7.1: Ordering Information (5/96)

=====================================================================

Article Created: 19 October 1992
Article Reviewed/Updated: 24 May 1996

TOPIC -------------------------------------------------------------

This article provides ordering information for System 7.1 Upgrade Kits.

DISCUSSION --------------------------------------------------------

System 7.1 is available in three kits.

For Users Upgrading from System 6.0.X
-------------------------------------
```
• The System 7.1 Personal Upgrade Kit (M7200LL/A) contains the software you
  need to upgrade from System 6.0.X to System 7.1 on a single Macintosh.

• The System 7.1 MultiPack (M7201LL/A) contains the software you need to
  upgrade from System 6.0.X to System 7.1 for up to 10 Macintosh computers.

The MultiPack provides a set of system enablers.  The Personal Upgrade Kit
and MultiPack Kit come with a new Compatibility Checker that doesn't
require the HyperCard application.

The Personal Upgrade kit and the MultiPack are available through your local
dealer.

```
For Users Upgrading from System 7.0 or 7.0.1
--------------------------------------------
```
• The 7.1 Update Kit (M7201LL/A) contains the software yo@o upgrade
  from System 7.0 or 7.0.1 to System 7.1 on a single Macintosh.

You can order the 7.1 Update Kit by calling the Apple Order Center. The Tech
Info Library article titled "Locating Vendor Information" can help you search
for Apple Order Center's phone number.

Telephone Support

```
-----------------
```
When you buy any System 7.1 kit, you get 1 year of telephone support.

For details of what is included in each kit, see Tech Info Library article
"System 7.1: General Description."
