LaserWriter IIf and IIg Upgrade Kit: PPD Files Named in Reverse

=====

Article Created: 15 December 1992

TOPIC -----

Are the PPD files on LaserWriter IIf/IIg ROM Upgrade disk named incorrectly?

DISCUSSION -----

Yes, the two PPD files on the LaserWriter IIf/IIg ROM Upgrade Disk are named in reverse:

- The PPD file for the LaserWriter IIf is named "APLWIIg2.PPD".
- The PPD file for the LaserWriter IIg is named "APLWIIIf2.PPD".

You can rename the files appropriately. There are no other known problems with the PPD files.
