StyleWriter II: Description

=====

Article Created: 6 January 1993

TOPIC -----

This article describes the Apple StyleWriter II Printer

DISCUSSION -----

The Apple StyleWriter II Printer provides laser-quality print at 360 dpi (dots per inch) using thermal ink-jet technology. The StyleWriter II works with any Macintosh that has at least 1MB of memory and a hard disk drive and uses System Software 6.0.7 or later.

The StyleWriter II comes with 39 TrueType fonts, including Times, Helvetica, Palatino, ITC Avant Garde Gothic, and Symbol.

The StyleWriter II has a multipurpose paper feeder that automatically feeds up to 15 envelopes or 100 sheets of paper. To handle diverse printing requirements, the StyleWriter II accommodates letterhead, labels, envelopes, and transparencies for overhead projection.

Apple's GrayShare technology gives your StyleWriter II the ability to print over 130 shades of gray and allows you to connect your StyleWriter II to a network through your Macintosh.

Print quality

- 360 dpi for laser-quality printing
- Grayscale printing for sharp graphics
