StyleWriter II: No Driver for Apple IIGS

==

Article Created: 21 January 1993

TOPIC ---

Does an Apple IIGS using GS/OS 6.0 support the StyleWriter II Printer?

DISCUSSION --

No, the Apple IIGS doesn't support the StyleWriter II printer. The GS/OS
6.0 driver for the original StyleWriter will not work with the
StyleWriter II and there is no new GS/OS driver for the StyleWriter II.
