Centris and Quadra Computers: Internal CD-ROMs (1/95)

Article Created: 9 February 1993
Article Reviewed/Updated: 4 January 1995

TOPIC -----

Can you install an internal CD-ROM drive in a Macintosh Centris or Macintosh Quadra computer?

DISCUSSION -----

All Macintosh Quadra and Centris computers, except Quadra 605 and Quadra 700 computers, have space for an internal CD-ROM drive or other 5.25-inch full-height device.

Although various configurations of Centris and Quadra computers are available with the AppleCD 300i factory-installed, Apple offers several AppleCD 300i upgrade kits:

Product Number:	Description:
-----	-----
B1332LL/A	AppleCD 300i Drive Kit, Centris 610 & 660AV
B1329LL/A	AppleCD 300i Drive Kit, Centris 650
B1328LL/A	AppleCD 300i Drive Kit, Quadra 900 & 950
B1330LL/A	AppleCD 300i Drive Kit, Quadra 800 & 840AV

Article Change History:
04 Jan 1995 - Added, except Quadra 605 and 700 computers.
18 Aug 1993 - Revised and retitled to include all Centris and Quadra computers and accompanying AppleCD 300i kit information.
