Centris 610 & 650, Quadra 800: A/UX Support 7/94)

======================================================================

Article Created: 9 February 1993
Article Reviewed/Updated: 28 July 1994

TOPIC -----------------------------------------------------------

Do the Macintosh Centris 610, Centris 650, and Quadra 800 support A/UX?

The information in this article relative to the Centris 610 and Centris 650 is
also relevant to the Quadra 610 and Quadra 650.

DISCUSSION ------------------------------------------------------

With the release of A/UX 3.0.1 the Centris 650 (with optional FPU) and Quadra
800 support A/UX.  Because the Centris 610 lacks an FPU it, therefore, cannot
run A/UX (unless there is a FPU upgrade solution from a third party).

Article Change History:
28 Jul 1994 - Added reference to Quadra 610 and 650 to aid in searching.
03 Aug 1993 - Updated to include A/UX 3.0.1
