Macintosh AV Series: No A/UX Support (12/93)

=====

Article Created: 29 July 1993
Article Reviewed/Updated: 23 December 1993

TOPIC -----

Can I use A/UX on the Macintosh Centris 660AV, Quadra 660AV or
Quadra 840AV?

DISCUSSION -----

None of the Macintosh AV models support A/UX. Apple has no plans to
upgrade A/UX to support these models at this time.

Article Change History:
23 December 1993 - Revised article to include all current AV models
