- 3) If the back of your computer DOES NOT have the high-density connector, you need to use an adapter cable, a NUBUS video card and will have to install the AudioVision software. (The adapter cable kit part number is M1243LL/A.)
- 4) Connect the adapter cable plugs (monitor, sound in, sound out, and ADB) to the back of the computer.
- 5) Connect the AudioVision high-density cable to the high-density connector on the adapter cable by firmly pushing the cable into the connector until you hear a click.
- 6) Install the AudioVision Software that provides integrated sound and video capabilities by inserting the AudioVision Installer disk into the internal floppy disk drive.
- 7) Click the Installer icon and install the software on the appropriate hard disk.
- 8) Once installation is complete, restart you Macintosh.
