Retrospect: Error -43 (file not found) (8/93)

===

Article Created: 18 August 1993

TOPIC ---

What is an Error -43 (file not found) in Retrospect?

DISCUSSION --

Error -43 (file not found) in Retrospect means that someone moved or
deleted one or more files and folders on the target Macintosh while a backup
or compare operation was in progress.

What to do: Try backing up again. If this error continues to occur, run
Apple's Disk First Aid, or another commercial disk checking utility on the
disk in question.
