Retrospect: Error -24062 (limited to 32000 files/folders)(8/93)

=====

Article Created: 19 August 1993

TOPIC -----

What is "Error -24062 (limited to 32000 files/folders)" in Retrospect?

DISCUSSION -----

This error occurs if you:

- try to back up a volume that contains more than 32,000 files and folders, or
- perform a search request which finds more than this number of items.

What to do: Partition your hard disk into two or more partitions, keeping less than 32,000 items in each partition. Or define each of the top level folders of the volume as a Subvolume.

Note: Dantz strongly recommends that you store fewer than 32,000 files on any single volume, both for Retrospect compatibility and because the Macintosh file system becomes less stable with this many files on a single volume.

For further information on working with Retrospect and Retrospect A/UX, search the Tech Info Library by "Retrospect" or "Remote."
