DISCUSSION -----

AppleShare 3.0.3 Patch is available. These articles can help you locate this software update:

- "Where To Find Apple Software Updates" -- Lists online services for free Apple software updates.
- "Obtaining Apple Product Support in the USA" -- Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech. Info. Library.

AppleShare 3.0.3 Patch - Read Me First

AppleShare 3.0.3 is the latest maintenance release of the AppleShare 3.0 product. It fixes problems found in the AppleShare 3.0, 3.0.1, and 3.0.2 releases.

Version 3.0.3, also fixes some incompatibilities between AppleShare and AOCE, and AppleShare and AppleSearch. It is recommended that you upgrade your AppleShare server to version 3.0.3 if you will be running either AOCE or AppleSearch on your server.

The AppleShare 3.0.3 patch application will upgrade your AppleShare 3.0, 3.0.1, or 3.0.2 product to AppleShare 3.0.3. It will upgrade the file server and AppleShare Admin to version 3.0.3. It will not upgrade the print server.

There are actually four different patch applications available. Choose the one that is appropriate for the language of AppleShare you are using.

IMPORTANT NOTICE:

If you have previously upgraded your AppleShare 3.0 or 3.0.1 server to AppleShare 3.0.1 Rev. B, you must replace your Rev. B File Server Extension file with either the 3.0 or 3.0.1 version prior to running the AppleShare 3.0.3 Patch Program.

To perform the upgrade, follow these steps:

- 1) Quit all applications that are currently running on your server.
- 2) Turn off any virus detection software.
- 3) Open the patch application. A text box with important information will appear.
- 4) Click Patch after reading the information in the text box.
- 5) Reboot your system.
