HyperCard 2.0v2: Anchored Record in Report Definition (7/92)

=====

Article Created: 10 December 1990
Article Reviewed/Updated: 23 July 1992

TOPIC -----

There is a feature of 2.0v2 where only the top-left record in the report definition page becomes anchored in the corner. This article describes what to do.

DISCUSSION -----

- 1) Choose the ImageWriter, choose Page Setup from the File menu, and choose No gaps between pages.
- 2) Choose Print Report from the File menu, and drag the top-left record into the top-left corner.
- 3) Choose the LaserWriter.
- 4) Choose Print Report, and drag a record other than the top-left one.
