HyperCard Reports: Use Straight, Not Curly, Quotes (7/92)

=====

Article Created: 1 March 1991
Article Reviewed/Updated: 23 July 1992

TOPIC -----

If a report item you're creating in the new report templates area of HyperCard 2.0 is showing up blank no matter what you do to the "item contents," be sure you're not using curly quotes instead of the straight quotes that HyperCard expects to see.

DISCUSSION -----

Even a single curly quote (produced with the keyboard's Option-[and Option-Shift-[) will make the item appear blank.
