HyperCard: Finding Hidden Objects (7/92)

======================================================================

Article Created: 15 May 1991
Article Reviewed/Updated: 23 July 1992

TOPIC -------------------------------------------------------------

This article describes how to make visible hidden HyperCard objects.

DISCUSSION --------------------------------------------------------
```

- To find hidden buttons, select the button tool, then hold down the
  Command and Option keys. All of the buttons, both hidden and visible,
  will appear in gray outline.

- To find hidden fields, repeat the same process but choose the Field tool.
