HyperCard 2.2: Can't Create Standalone App with 68000 (2/94)

=====

Article Created: 24 December 1993  
Article Reviewed/Updated: 17 February 1994

TOPIC -----

The standalone application builder is not supported on 68000-based Macintosh systems.

DISCUSSION -----

This means you can't create a standalone application on Macintosh Plus, SE, Classic, Macintosh Portable, or PowerBook 100 computers.

Article Change History:  
17 February 1994 - Added more Macintosh models to the Discussion.
