HyperCard 2.0v2: Print Stack Does Not Print Tall Adjusted (7/92)

=====

Article Created: 22 October 1991
Article Reviewed/Updated: 23 July 1992

TOPIC -----

HyperCard 2.0v2 had a problem printing cards and stacks because the Tall Adjusted checkbox was disabled causing card images to print too narrow.

In version 2.1, the Tall Adjusted checkbox has been enabled, but it only affects Print Card, not Print Stack.

DISCUSSION -----

Solutions:

- Print stacks in landscape mode.
- Create a button with a script to repeat for the number of cards, doMenu "print card", and go next card.
