System 7 Pro 7.1.1 Read Me (2/94)

Article Created: 22 February 1994

TOPIC -----

This article's discussion section contains the System 7 Pro 7.1.1 Read Me file.

DISCUSSION -----

WELCOME TO SYSTEM 7 PRO, Version 7.1.1

-----  
This document provides late-breaking news about System 7 Pro. This information is not in the documentation that came with your software. For all other questions, refer to your Macintosh software documentation.

APPLESHARE SERVER SOFTWARE

-----  
To install an AppleShare file server or print server on a Macintosh using System 7 Pro, you need AppleShare server software version 3.0.3. An application that updates your existing AppleShare file server or print server software to version 3.0.3 is on the disk titled "Before You Install."

APPLE IIe CARD SOFTWARE FOR THE MACINTOSH LC II

-----  
To use the Apple IIe Card with System 7 Pro on a Macintosh LC II, you need version 2.2 of Apple IIe Card Software. You should upgrade to version 2.2 only if you are using your LC II with System 7 Pro. Apple IIe Card Software 2.2 may also be used with the original Macintosh LC, but it is not required.

You can obtain the upgrade package from an authorized Apple Reseller. In the United States, you can call the Apple Customer Assistance Center at 1-800-776-2333 to request Apple IIe Card Software version 2.2. The new software is also available on AppleLink (AppleLink path: Apple

Products: Apple II: Apple II Product Information: Apple IIe Card).

#### INSTALLING SYSTEM 7 PRO ON A MACINTOSH QUADRA 700 AND 950

-----

To install System 7 Pro on a Macintosh Quadra, use the Installer program's Easy Install option, or choose "System software for any Macintosh" in the Installer's Customize window. If you use the Macintosh Quadra option in the Customize window, some parts of the Monitors control panel will not work correctly.

#### MacTCP USERS: CHECK VERSION BEFORE YOU INSTALL System 7 Pro

-----

To use MacTCP with System 7 Pro, you need version 1.1.1 or later. If the version number is 1.1 or earlier, you need to remove the file from your System Folder before you install System 7 Pro.

#### IF THE SYSTEM 7 PRO INSTALLATION FAILS

-----

The installation may fail if your existing System file contains fonts with names having more than 31 characters.

If this happens, follow these steps:

- 1) Open the System Folder and move the System file to the desktop.
- 2) Restart the Macintosh using the Install disk. When the Installer opens, proceed with the installation (refer to your manual for help).
- 3) Restart the Macintosh when the installation is completed.
- 4) If you wish to use the fonts that were installed in your old System file with System 7 Pro, open the System file on the desktop and drag the font icons to the System Folder icon. The fonts are moved to the Fonts folder and can now be used.

If you had installed additional software that modified the System file, you will need to reinstall it after you install System 7 Pro.

#### USING ADOBE TYPE MANAGER WITH SYSTEM 7 PRO

-----

In System 7 Pro, a new folder named "Fonts" stores all screen and printer fonts. Fonts you drag to the System Folder are automatically installed in the Fonts folder. If you use Adobe Type Manager, but are not getting smooth type on-screen, you must move any PostScript printer fonts located in the Fonts folder to the Extensions folder. Please contact Adobe to obtain a new version of ATM that will allow you to use the Fonts folder (see details below).

#### A Gift to You From Adobe

Adobe Systems is pleased to offer Apple computer owners a free copy of award-winning Adobe Type Manager (ATM) software.

With ATM, you'll gain access to thousands of PostScript Type 1 fonts for use on screen. Plus, ATM software can be used with all

Macintosh-supported printers, including the ImageWriter, StyleWriter, LaserWriter, and PostScript typesetters.

As a special bonus, you'll also receive four free typefaces from the Adobe Garamond family. These Adobe Originals are a fresh treatment of some of the most popular typefaces in history.

Take advantage of this incredible offer today! Order the latest release of ATM—plus the Adobe Garamond typefaces—and pay just a \$7.50 shipping and handling charge (\$30 outside the USA and Canada). Together, these products normally retail for \$346!

U.S. and Canadian residents, call

1-800-521-1976 ext. 4400, or fax 1-303-792-2231

Outside the U.S. and Canada, call

(303) 799-4000 ext. 4600.

Fax requests please include name, shipping address, daytime phone and credit card information. Please allow 6-8 weeks for delivery. Outside the U.S. and Canada, you may either take advantage of this \$30 offer for the English-language version of ATM shipped via courier, or see below for other offers that may be available in your country.
