LC 575, Quadra 650: "Maxtime Cable" Message Upon Startup (6/94)

==

Article Created: 10 March 1994
Article Reviewed/Updated: 29 June 1994

TOPIC --

In booting up a Quadra 650 or Macintosh LC 575, a message that says "Sending
handshake byte in postburn. Please plug in Maxtime cable for postburn." may be
generated.

This article describes how to get rid of this message.

DISCUSSION ---

This message occurs when the burn-in software is not erased off of the hard
drive at the factory prior to shipping.

To remove the software:

1) Boot from the Disk Tools diskette or the InstallMeFirst CD.
2) Trash the files in the Startup Items folder.

Or another alternative is to reinitialize the drive and reinstall system
software.

Article Change History:
14 April 1994 - Added Quadra 650 to the article title and discussion.
29 June 1994 - Cleaned up the discussion.
