Cannot Mount Macintosh HFS CDs in Novell 3.12 (8/94)

===

Article Created: 8 August 1994

TOPIC ---

I'm trying to determine if Novell for Macintosh 3.12 and HFS CD-ROMs work
together. I have the first two set up and I'm mounting ISO 9660 CDs fine. I'm
not having any luck at all mounting Macintosh HFS CDs. Novell's phone support
will not confirm or deny that they work at all. Is it possible to mount
Macintosh CDs in Novel 3.12?

DISCUSSION ---

HFS CD volumes are not supported with Novell 3.12. They are supported with
Novell 4.01, but you cannot load the HFS nlm and the ISO nlm at the same time,
so it's one or the other.

Again, there is no Novell support for HFS CDs in Novell 3.12

As a workaround a company called Micro Design makes a product called SCSI
Express that may do what you're looking for. It allows Macintosh CDs to be
mounted under Novell Netware 3.xx. To locate a vendor's address and phone
number, use the vendor name as a search string.
