TOPIC -----

The following article is the "User Instructions ReadMe" from the System 7.5 Multi-Pack Upgrade Kit.

DISCUSSION -----

Read Me for User Instructions

The two versions of the User Access Template in this folder contain instructions for connecting to a group upgrade file server.

You can customize either version of this template with the names of the zone, server, and volume containing the installation software, then distribute the instructions to users.

The template is provided in two formats: a Microsoft™ Word 5.0 document and a MacWrite II document.
