DOS Compatibility Card: Cannot SUBST Shared Drives (2/95)

===

Article Created: 11 January 1995
Article Reviewed/Updated: 22 February 1995

TOPIC ---

I have a DOS Compatibility Card and when I try using the MS-DOS Command SUBST on
a shared drive, I get an error. The error message reads "Cannot SUBST a network
drive". Is this normal?

DISCUSSION ---

Yes, this is normal. There are many things that MS-DOS does not let you do with
a networked drive, including using the SUBST command. This is how MS-DOS works.
