System 7.5: Recovering Deleted Text from Stickies (2/95)

======================================================================

Article Created: 20 February 1995

TOPIC -------------------------------------------------------------

I saved some important info using the Stickies DA and then I accidently deleted
it.  Is there any way to get it back?

DISCUSSION --------------------------------------------------------

Stickies supports the Undo command from the Edit menu.  If you accidentally
delete text, this is the only reliable way to retrieve it.  Note that the Undo
command will only undo the last text editing task.
