Internet Server For WWW: Documentation (1/96)

===

Article Created: 10 April 1995
Article Reviewed/Updated: 3 January 1996

TOPIC ---

This article describes the documentation on the CD-ROM included with the Apple
Internet Server Solution for the World Wide Web.

DISCUSSION --

Most CD-ROM software is fully documented. The applications come with electronic
versions of their standard documentation. Some of the applications, have had
their documentation edited and expanded for this release

Documentation for the Internet Server Solution will be in one of two formats:

HyperText Markup Languagate (HTML) or Adobe Acrobat (PDF)

HTML documentation can be read through Netscape with the "Open File" command.
Netscape is automatically configured to point to the "Apple Internet Server
Solution"
file//:<Name of drive>/Applications/WebSTAR/HTMLpages/docs/Welcome.html)

This page has a link "Online Documentation" that points to a page that refers to
all documentation.

The following documenation is in HTML format and can be viewed by browsing the
pages with Netscape:

Some documentation is stored in Portable Document Format (pdf) and requires the
installation of Adobe Acrobat Reader or Exchange. The documents are referenced
with HTML links, which triggers the launching of Reader or Exchange:

Widgets documentation
Adobe Acrobat 2.1
Applesearch Server

Applesearch Client
Webmaster

The CD-ROM contains the following software:

- WebStar server software
- BBEdit - a hypertext markup language (HTML) editor
- Netscape client software
- Domain Name Server (DNS) software for the Mac OS
- HyperCard software and sample data*
- FileMaker Pro software and sample data*
- Butler SQL software and sample data*
- AppleSearch 1.5 and AppleSearch CGI
- Adobe Acrobat Pro
- Clickable Maps and Electronic Mail Common Gateway Interfaces (CGIs)
- Web "page" that points to a number of client helper applications
- Customizable Web pages and forms.

* Does not include complete application package. Software allows users to modify data, but not the structure of the database.

Article Change History:
03 Jan 1996 - Corrected server software.
12 Jul 1995 - Changed title for consistency, added documentation link paths.
