Macintosh Performa: Kidsoft Extension and Type 11 (11/95)

=====

Article Created: 17 November 1995

TOPIC -----

When I start up my Power Macintosh 5200/75 LC computer, I get the message, "Volume 3 Issue 4, Type 11." I can only start up my computer if I disable extensions. What is causing this?

DISCUSSION -----

Within the Extensions folder in your System Folder, check to see if you have a file called, "Volume 3 Issue 4". If so, remove it because it is likely the cause of the error. This file appears to be installed from the KidSoft CD, and you should contact KidSoft for additional assistance.
