Business Education Bundle v3.3: Contents (3/96)

Article Created: 4 January 1996
Article Reviewed/Updated: 13 March 1996

TOPIC -----

This article lists the software contents of the Business Education Bundle.

DISCUSSION -----

The Business Education Bundle is a Education market product comprising a collection of software CD-ROM discs, manuals, and curriculum guides. There are three parts to this bundle. The (basic) Business Education Bundle includes a computer, software CD-ROM discs, and curriculum materials. The Teacher Kit (T1538LL/B) includes manuals and textbook teacher guides. The Student Kit (T1800LL/A) contains instructional manuals for students. The Teacher and Student kits are sold separately as additions to the (basic) Business Bundle and contain no software so it is recommended not to order them without the basic Bundle.
