Workgroup Server 7250/120: Description (9/96)

=====

Article Created: 5 January 1996
Article Reviewed/Updated: 10 September 1996

TOPIC -----

This article provides a description of the Workgroup Server 7250/120.

Important Note:

In September of 1996, a new product with the same name, Workgroup Server 7250/120, was introduced which has an 8x-speed CD-ROM drive and a 2 GB hard drive instead of a quad-speed CD-ROM drive and a 1.2 GB hard drive.

DISCUSSION -----

The Workgroup Server 7250/120 is an affordable and versatile member of the PowerPC processor-based Workgroup Server family from Apple. It delivers the file and print, database, Internet, and applications server capabilities that meet the needs of medium-sized workgroups in education, business, and publishing. And it's ideal for workgroups that use both Macintosh and Windows software-based computers.

Apple Workgroup Servers are highly reliable, affordable, high-performance systems with large storage capacity that provide organizations with faster, more efficient shared network services and secure centralized storage. The Workgroup Server 7250/120 not only meets these criteria, but also runs the familiar graphical interface of the Mac OS, making all of its capabilities incredibly easy to use.

Featuring a 120-megahertz PowerPC 601 processor with 32K on-chip cache and 256K level 2 memory cache, the Workgroup Server 7250/120 delivers outstanding performance. And for easy, flexible expansion, the Workgroup Server 7250/120 features three PCI slots that let you add capabilities by installing any of a variety of cards.

To make sure that network administrators can work as efficiently as possible, and that users get the most out of all that power and capacity, the Workgroup

Server 7250/120 offers a choice of three software bundle solutions. The Applications Server Solution provides a variety of useful Apple and third-party software for administration, reliability, productivity, and performance. The AppleShare Server Solution includes all of the software that comes with the Applications Server, plus a new version of AppleShare file and print server, remote administration software from Santorini, and Apple Remote Access MultiPort Server software. And the Apple Internet Server Solution comes with all the software you need to create a presence on the World Wide Web-quickly and easily. No matter which option you choose, the Workgroup Server 7250/120 also includes AppleShare Client for Windows software, so Windows users on the network can access networked printers and files stored on a Workgroup Server running AppleShare file and print software.

So if you want a server that can accommodate today's budget and expand to handle tomorrow's demands, the Workgroup Server 7250/120 is the server you've been waiting for.

Features

Expansion and storage

- Three PCI (Peripheral Component Interconnect) slots for expansion cards
- Internal 1.2 GB, 5400-rpm hard or 2 GB, 4500-rpm* hard disk drive and room for one additional storage device
- Internal quadruple-speed or 8x-speed CD-ROM drive*
- One SCSI DMA bus to support up to seven devices (three internal, four external)
- Eight ports to support a wide range of peripherals

* The 2 GB, 4500-rpm hard disk drive and 8x-speed CD-ROM drive are available in models M5482LL/A, M5483LL/A, and M5484LL/A; not in the earlier configurations.

Networking

- Built-in Ethernet and LocalTalk capabilities
- Support for AppleTalk and TCP/IP networking protocols
- Token Ring support optional (with PCI card)

Power, speed, and memory

- 120-MHz PowerPC 601 RISC processor with floating-point processor and 32K on-chip cache
- 256K level 2 cache
- 16MB of RAM, expandable to 256MB

Fast, easy setup

- Comes with System 7.5.3 software installed
- Includes AppleShare 4.2.1 file and print server software (some configurations)

Compatibility

- Comes with AppleShare Client for Windows

Bundled software

- Includes a variety of software for administration, reliability, productivity, and performance

Service and support

- Hardware troubleshooting for the life of the server; 90 days of assistance for Apple-branded software (phone support)
- One-year, on-site hardware warranty providing two-business-day response
- Additional service and support available

Ordering Information

=====

Workgroup Server 7250/120 Applications Server Solution

(16 MB/2GB/CD)

Order No. M5482LL/A

- 256K level 2 cache, 1.4 MB Apple SuperDrive floppy disk drive, and mouse
- System software version 7.5.3
- Server Solutions CD and other bundled software

Workgroup Server 7250/120 AppleShare Server Solution

(16 MB/2GB/CD)

(AppleShare Server Solution)

Order No. M5483LL/A

- Identical to Order No. M5482LL/A, plus AppleShare 4.2.1, Apple Remote Access MultiPort Server software, and Server Manager from Santorini

Workgroup Server 7250/120 Internet Server Solution for the World Wide Web

(16 MB/2GB/CD)

Order No. M5484LL/A

- 256K level 2 cache, 1.4 MB Apple SuperDrive floppy disk drive, and mouse
- System software version 7.5.3
- Apple Internet Server Solution CD (WebSTAR; PageMill; MacDNS; HomeDoor; NetCloak; ServerStat; RealAudio; Acrobat Pro; HyperCard; Web connectivity software for your existing EveryWare Butler SQL and FileMaker Pro databases; Navigator; BBEdit; clickable maps, e-mail, and database AppleSearch CGIs; customizable WWW pages and forms; AppleScript and useful scripting additions; AppleSearch; Apple RAID). Does not include Workgroup Server Solutions CD, AppleShare 4.2.1, or Server Manager.
- Includes WebMaster Macintosh by Bob LeVitus and Jeff Evans

Included with all Workgroup Servers:

- Complete setup, learning, and reference documentation
- Limited one-year hardware warranty

Macintosh Memory Expansion Kits

A variety of memory expansion kits are available. 168-pin DIMMs are required. Check with your Apple reseller for details.

Workgroup Server 7250/120 Applications Server Solution (Discontinued)

(16 MB/1.2GB/CD)

Order No. M4335LL/A

- 256K level 2 cache, 1.4 MB Apple SuperDrive floppy disk drive, and mouse
- System software version 7.5.3
- Server Solutions CD and other bundled software

Workgroup Server 7250/120 AppleShare Server Solution (Discontinued)

(16 MB/1.2GB/CD)

Order No. M4336LL/A

- Identical to Order No. M4335LL/A, plus AppleShare 4.2.1, Apple Remote Access MultiPort Server software, and Server Manager from Santorini

Workgroup Server 7250/120 Internet Server Solution for the WWW (Discontinued)

(16 MB/1.2GB/CD)

Order No. M4337LL/A

- 256K level 2 cache, 1.4 MB Apple SuperDrive floppy disk drive, and mouse
- System software version 7.5.3
- Apple Internet Server Solution CD (WebSTAR; PageMill; license for MacDNS domain name server software; NetCloak; ServerStat; RealAudio; Acrobat Pro; HyperCard; Web connectivity software for your existing EveryWare Butler SQL and FileMaker Pro databases; Navigator; BBEdit; clickable maps, e-mail, and database AppleSearch CGIs; customizable WWW pages and forms; AppleScript and useful scripting additions; AppleSearch; Apple RAID; AppleShare Client for Windows). Does not include Workgroup Server Solutions CD, AppleShare 4.2.1, or Server Manager.

Product specifications are subject to change. Check with your Apple reseller for the most current information about product specifications and configurations.

Article Change History:

- 10 Sep 1996 - Added ordering information .
- 09 Sep 1996 - Added new model information.
- 26 Feb 1996 - Changed distribution status.
