Scholastic SuperPrint: Clip Art Files Manual Error (1/96)

===

Article Created: 26 January 1996

TOPIC ---

The manual for Scholastic SuperPrint that came with my Apple Early Language
Connections bundle states it comes with 33 clip art galleries (page 29), 19
frames (page 32), and 19 scenes (page 33).

When I compare what is actually on my hard drive to what the documentation shows
I see the following:

• 18 clip art galleries not 33.

• 10 frames not 19.

• 10 scenes not 19.

DISCUSSION --

The discrepancy between the actual number of files installed and the number
listed in the manual is a documentation problem. SuperPrint includes 18 clip art
galleries, 10 frames, and 10 scenes. A separate product called SuperPrint
Graphics Pack contains the additional graphics.

The Early Language Connections bundle contains both SuperPrint and the
SuperPrint Graphics Pack. When both these products are installed there are 33
clip art galleries, 19 frames, and 19 scenes.
