AppleShare Workstation 3.6.1 to 3.6.2 Changes (3/96)

=====

Article Created: 27 March 1996

TOPIC -----

This article describes the changes in AppleShare Workstation software from version 3.6.1 to 3.6.2.

DISCUSSION -----

The AppleShare Workstation 3.6.2, changes from 3.6.1 are:

- Changes the behavior of the Alias Manager, included with System 7.5.3 and System 7.5 Update 2.0, to use the workstation user interface for Alias resolution. Set Password Button now available.
- Fixes several hangs due to VBL (vertical blanking interrupt) problems.
- Fixes a crash on launch of certain applications from the server.
- When you get a Bad Password error, the workstation now asks you to check the Caps Lock key if it was active when you entered the password.
