Microsoft Bookshelf: Please Insert The CD Message (4/96)

=====

Article Created: 28 March 1996

TOPIC -----

I got the Microsoft Bookshelf application with the Library Research Software Bundle from Apple. Why do I get an error message asking me to insert the Microsoft Bookshelf CD-ROM disc when it is in the drive already?

DISCUSSION -----

The Microsoft Bookshelf CD is included with the following software bundles from Apple:

- Library Research Bundle
- Multimedia Learning Tools Bundle

Some early versions of the CD were improperly mastered which is the reason for the error message.

Please call 800-SOS-APPL to get the newer version of this CD.
