LaserWriter: TCP/IP Printing For VMS Solutions (4/96)

===

Article Created: 4 April 1996

TOPIC ---

This article provides information on a VMS software packages which supports UNIX
style LPR printing. Apple customers with VMS systems and Apple LaserWriters may
use this software as a solution for TCP/IP printing.

DISCUSSION --

TGV Software's MultiNet for OpenVMS version 3.5 contains "LPD/LPR printing
services" as part of its standard feature set.

There may be other third-party products which provide this functionality. This
product is not tested by Apple, and therefore, not supported by Apple Computer.

For more information on configuring non-UNIX software for TCP/IP printing, see
the Tech Information Library article, "LaserWriters: TCP/IP Printing from
Non-UNIX Workstation."

The Tech Info Library article titled "Locating Vendor Information" can help you
search for a particular vendor's address and phone number.
