System 7.5.3: Retrospect 3.0 Needed (2/97)

Article Created: 11 May 1996
Article Reviewed/Updated: 11 February 1997

TOPIC -----

Since updating to System 7.5.3, Retrospect 2.x will not recognize the tape in my DAT drive it just says "busy." What should I do?

DISCUSSION -----

Retrospect 2.x is not compatible with System 7.5.3 and later. You should contact Dantz Development Corp. for information on how to upgrade to Retrospect 3.0 or later.

The Tech Info Library article titled "Locating Vendor Information" can help you search for a particular vendor's address and phone number.
