Education Software Bundles: Adobe Type Manager Error (9/96)

=====

Article Created: 25 September 1996

TOPIC -----

I have both the Power Macintosh 5260 Bonus and the Multimedia Learning Tools Education Bundles installed on the computers, and I am getting Adobe Type Manager error messages when the computers are started up. What could be causing this?

DISCUSSION -----

This error is caused by a version conflict between two versions of the ~ATMcontrol panel installed by each bundle. Use the latest version of Adobe Acrobat, which is version 2.1 and remove the older version of the control panel.
