Macintosh Performa 5400/180 (non-US): Description (10/96)

=====

Article Created: 24 October 1996

TOPIC -----

This article contains the specifications for the Macintosh Performa 5400/180 computer.

IMPORTANT: This computer is only available for sale outside of the United States.

DISCUSSION -----

From its state-of-the-art RISC-based processor to its sleek graphite color, the Apple Macintosh Performa 5400/180 computer is like no other Macintosh you've ever seen. This sophisticated all-in-one system is ready to use right out of the box, with everything you need to inspire your creativity and increase your productivity.

The computer's 180-megahertz PowerPC 603e processor and 16 megabytes of RAM let you easily run an abundance of Macintosh applications--and there's plenty of room to store them on the 1.6-gigabyte internal hard drive. To get you started, there are more than a dozen learning, home, and entertainment programs, plus a collection of multimedia reference CDs.

The Performa 5400/180 includes multimedia features that are expensive add-ons with other computers, including a CD-ROM drive for multimedia applications and a 15-inch monitor (12.8-inch diagonal viewable image size) to display vibrant colors. Using the built-in capabilities, you can watch television in a window, listen to FM radio, and view and record video from VCRs and video cameras. There's also a built-in microphone to directly record your own sounds. These multimedia features are made more lifelike through the built-in stereo speakers enhanced by SRS 3D surround sound and the Macintosh 16-bit stereo sound system.

To connect to the world of information services, including the Internet, the Performa 5400/180 features a built-in 28.8-kilobit-per-second modem. The modem

also allows you to use your computer as a fax or answering machine.

If you need even more advanced capabilities in the future, expansion is easy through the industry-standard Peripheral Component Interconnect (PCI) slot and built-in SCSI support.

The Macintosh Performa 5400/180: Performance, convenience, and sophistication that will add elegance to your home or office.

#### Features

=====

Complete, ready-to-use system

-----

- \* Computer, multiple-scan 15-inch color display (12.8-inch diagonal viewable image size), CD-ROM drive, floppy disk drive, hard disk, microphone, and stereo speakers integrated into one convenient and stylish package
